

File  
2-57/D~~CONFIDENTIAL~~29th July, 1960COCOM Document 4109COORDINATING COMMITTEERECORD OF DISCUSSIONONPROPOSED GERMAN EXPORT OF 400 OSCILLATOR QUARTZES TO POLAND28th and 29th July, 1960

Present: Belgium (Luxembourg), Canada, Denmark, France, Germany, Italy, Japan, United Kingdom, United States.

Reference: COCOM 4078 and Addendum.

1. The CHAIRMAN drew the Committee's attention to a Memorandum by the German Delegation (COCOM 4078) proposing the export of 400 Oscillator Quartzes to Poland. He invited Delegates to express their Governments' views.

2. The BELGIAN, CANADIAN, DANISH, FRENCH and JAPANESE Delegates stated that their authorities had no objection to this export.

3. The Chairman said that he had been informed by the NETHERLANDS Delegation that they would join the majority.

4. The UNITED KINGDOM Delegate stated that his authorities required more time to study this matter. He hoped that the United Kingdom Government's position would be made known before the 2nd August.

5. The UNITED STATES Delegate stated that his authorities had carefully studied the German request and the technical information submitted to the Committee. However, they were unable to take a position on the request until they had received certain additional information. The United States authorities, therefore, would appreciate receiving the following information:

1. The number of crystals which had been delivered with the original shipment of equipment;
2. The number of channels in the Teleport V transmitter;
3. What was the mode on which the original Teleport V crystals operated?
4. Exactly what police organization was using the Teleport V transmitters?

6. The GERMAN Delegate, replying to the first of the questions put by the United States authorities, said that originally 468 quartz crystals had been delivered with the transmitters. In answer to question 4, he stated that the transmitters were being used by the Warsaw City Police. He undertook to reply subsequently to the other two questions. He looked forward to receiving the views of the United Kingdom Delegate and - upon the answers to the open questions - those of the United States Delegation.

7. On the 29th July the GERMAN Delegate informed the Secretariat and the United States Delegation that some of the Teleport V transmitters worked on 3 channels, the others on 9 channels.
